History of Botany Department

The department was established in the year 1996. At the beginning only one lecturer was appointed & one lab attendant was appointed. The laboratory is separately established & properly equipped.

Essential instrument are present in the laboratory. Important news and article are displayed on the board. Every year boyanical excursion are arranged to collect the plants & plant material for study, more preference is given to local collections. Students visit to ponds, Rivers and different fileds and the different plants and preserve them as a part and curriculum aspects.

Teaching is with lecturer's questions and answers mewthods & using chart available in the department. Performance of the students is through class tests & tutorials, Term Examinitions. Our college established in a rular area so the educational interest of this area student is very poor so for giving admission the various task & disturbance coming through us.

So at the time of admission we try to various activities like banners, posters, pamphlets& local channel. But our area is agro based area number of student make a farm that why the ignorance to education. The 12th student passed out than we make a list of passing student & contact them immediately & conveyance to parents & student about the importantance of higher education. Then some student come to college & gets them admission. Socioeconomic status- Above mention like the student in economically poor so we try to best to help students.

Aims:

- 1. To develop the interest of the students in plants.**
- 2. To create curiosity of growth and development of plant.**
- 3. To produce ideal and thinker student about nature.**

OBJECTIVES:

- 1. To study of the botany has helped to find the congestive agent for Many Diseases and other problem which man faces are pollution and population Explosion**
- 2 Students have knowledge the importance of plants on source of medicines Useful to cure human, animal and plant diseases.**
